Spark Your Creativity

Try thinking outside the box or in our case: off the page. Challenge yourself to find different uses for products you have that may have spent too much time on the shelf. For example, our wrapping paper is good for more than making your packages pretty, it is perfect for use in your holiday projects.

Happy to Have ~ Stampin' Up!® Designer Wrapping Paper

Stamping your own gift wrap is a wonderful way to personalize your gifts and really give them that extra something. On page 179 of the *Fall/Winter Collection 2007* you'll find blank gift wrap that you can stamp for any occasion. However, if the holidays keep you as busy as they do me, you might not have time to stamp your gift wrap. You can find a beautiful alternative on page 22 of the *Holiday Mini Collection 2007*. There are three collections of Designer wrapping paper that coordinate with Satin Ribbon, Accents and Elements and select stamp sets. Each roll is 25" x 17-½" and is approximately 37 sq. ft.

In Color™ Spotlight ~ Groovy Guava

A fruity drink, a sundress, a seashell, a tropical flower – just a few of the things that come to mind when I think of Groovy Guava. This 2007 In Color™ selection is one of the more vibrant and most fun to use. You'll find this color used in conjunction with the

Tapestry style and also in the newest baby girl Simply Scrappin' Kit®. There is no question that Guava is one of the most versatile of the selections. If you haven't added it to your collection, add it to your next order and see how many uses you can find.

ScrapHappy ~ The Heritage Style

If you are a scrapbooker, by now you have probably attempted Heritage scrapbooking. If you haven't done any scrapbooking, this style is a reason to start. The Heritage style goes hand in hand with documenting your family history. Most Heritage scrapbooks showcase old photographs, cherished documents and usually have an aged look. This style of scrapbooking involves the use of frills like lace and ornate imagery. You will usually see regal colors used along with browns for distressing and aging the pages. If you are working in the Heritage style, be sure to get your hands on the Pretties kit. A Heritage album is a wonderful gift not only for yourself but also for your family.
